QUALIFICATIONS

Experienced team-builder with strong management skills. Effective manager of client and stakeholder relationships. Clear communicator of complex technical concepts. Versed in the software development life-cycle. Published in the Apple App Store.

EXPERIENCE

Software Consulting / 2013 - 2019 / Orlando

Matlock & Associates Led the team developing a platform to manage the deployment of bomb-sniffing dogs. Leveraged technical experience to define scope and manage the project from concept to completion. Regularly engaged stakeholders, led efficient meetings, and interviewed prospective developers.

StickyGuide Managed and architected a suite of public-facing and enterprise white-label apps. Improved client efficiency by developing a system to remotely deploy apps to mobile devices. Produced high-level specs and API schema. Managed developer tasks and reviewed project deliverables. → [Dispensary Apps](#)

Appworks Pushed multiple mobile app projects toward the finish line by distilling stakeholder needs into actionable user stories. Streamlined communication among developers, groomed backlog, and conducted code reviews.

D3 Studios Enabled seamless, in-person mobile payments by integrating Stripe Terminal with a suite of iOS apps. Interfaced with stakeholders and UX designers. → [Starboard Suite](#)

Sneeze & Cookie Architected and engineered an iOS app to mail postcards to the President. Implemented a fully serverless Python backend and API for processing payments, cloud-based mailings, and transactional emails. → [Trumpet: Postcards to POTUS](#)

Incipia Directed a mobile app project to support a product marketplace. Coordinated tasks among front- and back-end developers.

WeDo Custom-built a loosely-coupled iOS chat service to integrate with a legacy app. Featured a networking layer and a robust data model to manage conversations and messages. → [WeDo App](#)

Software Development / 2011 - 2013 / Los Angeles

Method Studios Developed Python apps for image sequence conversion and delivery. Built and maintained 3D integration and compositing tools for Nuke. Co-authored and implemented company software policies.

Visual Effects / 2008 - 2011 / Los Angeles

Method Studios *Transformers: Dark of the Moon, Pirates of the Caribbean: On Stranger Tides*

Digital Domain *Real Steel, TRON: Legacy*

Luma Pictures *Harry Potter and the Half-Blood Prince, X-Men Origins: Wolverine, Underworld: Rise of the Lycans*

CREDENTIALS
